Faires Farm Community News
2013 Community Bike Ride

Saturday, November 16, 2013 @ 8:00am.
Johnnywhite7@hotmail.com if interested.

Creekview/Pierpoint HOA News

- Please keep kids and animals out of Pond. (Beware of Large snapping turtle)
- We had a lot of storm damage.
  - Trees have been taken down (Corner Josie and Faires Farm Rd.) and will be replaced this spring.
  - Our Pond Fountain had storm Damage done. Will replace next spring.
Greetings,

Thank you for continuing to be diligent.

Community Policing News
- Crime Trends

Crime Trends comparing September 2012 to September 2013

Larceny-Other- There was a 52.38% increase in larceny reports. Please keep an eye on your property when you are out or have acquaintances at your home. The most stolen piece of electronics is an IPHONE or cell phone. A lot of cell phones are being stolen when the owner loses sight of them for just a minute. Please keep your phone in your pocket when you’re not using it! There is still a trend of suspects breaking into buildings under construction and stealing copper wiring.

Residential Burglary- There is a 62.5% increase in Residential Burglaries in the University City Division Response Area Three. The hot spots continue to be mainly in the Faires Farms neighborhood, and Back Creek area. A new trend is showing at the Barrington Place apartment complex. Please consider requesting a CPTED survey from your Community Coordinator to identify possible weaknesses in your home security plan.

Larceny from Vehicle - Larceny from Autos are up 12.5%. Not a significant increase, but continue to lock your car doors and remove ALL valuables from your car. Most car break-ins occur over night while you are sleeping. So don’t become a victim!

North Carolina Wildlife Resources Commission
Gordon Myers, Executive Director  
Dear Animal Control Office,

The North Carolina Wildlife Resources Commission recognizes that Animal Control Offices across the state are experiencing an increase in calls related to wildlife. It is imperative that we work cooperatively to ensure our citizens are provided with timely and accurate information pertaining to problem wildlife situations.

In an effort to help your office and the Commission provide customer service efficiently and effectively please share the following information when requests for assistance with wildlife are received.

For calls requesting assistance with wildlife:
1. Rarely and only under the most extreme circumstances does the North Carolina Wildlife Resources Commission trap and relocate any nuisance wildlife. For technical guidance and staff contact information to help individuals solve situations with wildlife causing a nuisance or wildlife causing property damage go to http://www.ncwildlife.org/HaveaProblem.aspx.
2. For callers experiencing property damage from wildlife there are three basic options:
   a. Seek technical guidance on habitat modifications or other long term solutions to reduce wildlife being attracted to the property by going to http://www.ncwildlife.org/HaveaProblem.aspx.
   b. Request a depredation permit to trap the wildlife causing the damage call 919-707-0050 and ask for district biologist contact information or call WRC Dispatch at 800-662-7137. The biologist and/or enforcement officer determines whether the situation warrants a permit.
   c. Hire a certified wildlife damage control agent (WDCA) who can help with habitat modifications and if a depredation permit is warranted can write the permit and trap the animal. A WDCA cannot issue depredation permits for big game animals: deer, bear, wild turkey. Contact information for WDCAs can be found at http://www.ncwildlife.org/Trapping/WildlifeDamageControlAgent.aspx. Search by county for certified WDCAs. Wildlife damage control agents are certified by the Commission. A WDCA agent must take a two day training course and pass a test to become certified. WDCAs are in the wildlife damage control business and charge for their services.
3. For nuisance wildlife such as a wild animal that is coming on caller’s property often, coming close to human dwellings and becoming use to being around humans go to http://www.ncwildlife.org/HaveaProblem.aspx for information on reducing human/wildlife conflicts and living with wildlife in an area.

Please share this information with all staff answering the phone or interacting with the public. You are welcome to add this information to your website or post it where it can be viewed by the public.

**FELONS CARRYING FIREARMS**

On Thursday, May 17, 2012, the Charlotte-Mecklenburg Police Department launched a program intended to target felons carrying firearms in our community. The program urges members of the community to call a dedicated phone line and forward anonymous information with the identity and whereabouts of a felon in the possession of a firearm. The anonymous caller will be eligible for a $500.00 reward
if an arrest is made as a result of their anonymous tip. Additionally, anyone in the public who forwards information leading to the arrest of a person illegally carrying a firearm may be eligible for a cash reward. During this campaign the community is asked to call our firearm tip line at 704.334.1600 to speak with a dispatcher. They will need to give the name and or detailed description of the suspect, and where the person is at the time of the call. Callers will not be required to leave their name, number, or address. A Detective with the Charlotte-Mecklenburg Crime Stoppers will follow up on the dispositions of these anonymous calls and will arrange a time and date to pay out reward money to the caller when applicable. As always, anyone requiring an emergency response from police is asked to immediately call 9-11. Currently, the campaign has netted the recovery of over 38 guns and 14 arrests.

**Remember it is anonymous and the call can result in a Cash Reward.**
